Gentlemen:

Subject: Docket Nos. 50-361 and 50-362
San Onofre Nuclear Generating Station
Units 2 and 3

During several telephone conversations the week of September 24, 1984, the NRC (Mr. Y. Hsui) suggested an editorial modification to proposed change NPF-10/15-138 to improve its clarity. Proposed Change NPF-10/15-138 was originally submitted to the NRC by letter dated April 10, 1984 and formally by Amendment Application numbers 26 and 12 dated April 22, 1984 for San Onofre Units 2 and 3 respectively.

The editorial modifications suggested by Mr. Hsui have been reviewed and found to be acceptable by SCE. Accordingly, SCE requests that these modifications be included in Proposed Change NPF-10/15-138.

Included for your use as enclosures to this letter are revisions of Attachment B and Attachment D of Proposed Change NPF-10/15-138 which incorporate the proposed modifications.

It should be noted that Proposed Change NPF-10/15-138 was assumed as a ground rule for Cycle 2 and is also required to support implementation of CPC and CEAC software changes and Cycle 2 operation. Therefore, SCE requests timely NRC approval of Proposed Change NPF-10/15-138.

If you have any questions concerning the enclosed information, please call me.

Very truly yours,

M.O. Medford
