Director, Office of Nuclear Reactor Regulation
Attention: Mr. Robert Baer, Chief
LWR Branch 2, DPM
U. S. Nuclear Regulatory Commission
Washington, D. C. 20555

Gentlemen:

Subject: Docket Nos. 50-361 and 50-362
San Onofre Nuclear Generating Station
Units 2 and 3

As part of Southern California Edison's (SCE) commitment to keep the NRC staff informed of work performed in demobilizing the dewatering well system, fifty (50) copies of "Status Report on the Investigation of the Dewatering System, March 1979" are provided for your use. This report documents field work performed between November 1978 and mid-February 1979.

During April 1979, SCE intends to submit to the staff a report documenting the final disposition of Well #7. This report will be similar to those submitted on Wells #6 and #8.

At the conclusion of the demobilization work, SCE will submit a final wrap-up report to summarize all work performed in demobilizing the dewatering well system.

If you have any questions on the presented information, please contact me.

Sincerely yours,

KP Baskin
