SUBJECT: Docket Nos. 50-361 and 50-362
San Onofre Nuclear Generating Station
Units 2 and 3 (SONGS 2 & 3)

References: (a) NRC letter dated August 24, 1979
Mr. R. L. Baer to Mr. J. H. Drake
and Mr. B. W. Gilman

Dear Mr. Miraglia:

In response to reference (a), enclosed are 63 copies of document entitled, "Secondary Water Chemistry Monitoring Program for San Onofre Nuclear Generating Station, Units 2 & 3," dated November 1980, which is a program to limit steam generator tube corrosion. The program description is formatted in accordance with the model license condition as provided by the Commission.

The FSAR will be amended to include the proposed secondary water chemistry monitoring program and will replace any proposed Technical Specifications on secondary water chemistry.

It is expected that changes to the secondary water chemistry monitoring program will be made as more data is obtained from plant operations. The Commission will be informed of any significant changes.

Very truly yours,

KP Baskin
