Dear Mr. Engelken:

Subject: Docket Nos. 50-361 and 50-362
San Onofre Nuclear Generating Station, Units 2 and 3

This letter confirms verbal notification on March 27, 1981 of a condition discovered in construction which is considered potentially reportable in accordance with 10CFR50.55(e). The condition concerns four (4) valves in the Component Cooling Water System which have a design pressure rating less than the design pressure rating of the system in which they are installed.

We are performing an evaluation of this condition and will submit an appropriate report in accordance with 10CFR50.55(e)(3) if the condition is determined to be reportable. If you have any questions or require additional information, please let me know.

Very truly yours,

A handwritten signature in dark ink, appearing to be "D. E. Nunn", with a long horizontal line extending to the right.
