Director, Office of Nuclear Reactor Regulation
Attention: Mr. George W. Knighton, Branch Chief
Licensing Branch No. 3
U. S. Nuclear Regulatory Commission
Washington, D.C. 20555

Gentlemen:

Subject: Docket Nos. 50-361 and 50-362
San Onofre Nuclear Generating Station
Units 2 and 3

Reference: SCE letter to the NRC dated July 14, 1983

Consistent with the commitment made by SCE to the NRC in the referenced letter, this letter is to provide the SCE accelerated schedule for implementation of modified CPC software associated with Local Power Density (LPD) penalty factors applied when Control Element Assembly Calculators (CEAC's) are out of service.

The necessary software changes for San Onofre Units 2 and 3 will be developed and approved for implementation in the CPC's on or before February 2, 1984. SCE will prepare and approve the design change package documentation and will require up to 7 days in Mode 5 for implementation of this change. SCE will utilize the first available outage of sufficient duration after February 2, 1984 for this purpose.

If you have any questions or comments, please let me know.

Very truly yours,

KP Baskin
