Gentlemen:

Subject: Docket Nos. 50-361 and 50-362  
San Onofre Nuclear Generating Station  
Units 2 and 3

The Southern California Edison Company (SCE) formally submitted Proposed Technical Specification Change NPF-10/15-141, regarding revised steam generator tube plugging criteria, to the Nuclear Regulatory Commission (NRC) by SCE letter dated June 29, 1984. During a September 12, 1984 phone conversation, the NRC staff requested submittal of the steam generator tube accident analyses which support Proposed Change NPF-10/15-141. The supporting analyses (Calculation No. CENC-1645) was provided informally on September 13, 1984 in response to this request. This letter constitutes the formal submittal of the analyses to facilitate NRC approval of Proposed Change NPF-10/15-141.

If you have any questions regarding the information provided by this letter, please call me.

Very truly yours,

Enclosures
