Washington, D.C. 20555

Gentlemen:

Subject: Docket Nos. 50-361 and 50-362
San Onofre Nuclear Generating Station
Units 2 and 3

By letter dated September 14, 1983, SCE committed to provide the NRC with the Detailed Control Room Design Review Report and Program Plan. Subsequently, SCE submitted the DCRDR Report and Program Plan to the NRC by letter dated January 31, 1984 in fulfillment of this commitment.

By letter dated August 9, 1984 and during an August 30, 1984 meeting with the NRC, the NRC indicated that SCE's DCRDR Report did not meet all of the requirements of Supplement 1 to NUREG-0737 and that additional documentation must be supplied before SCE's DCRDR Report receives final NRC approval.

The purpose of this letter is to submit SCE's proposed schedule for completion of this supplemental report as requested by NRC letter dated October 23, 1984. Due to the estimated level of effort required to comply with the NRC documentation requirements and the availability of DCRDR Supplemental Report Task Force members, SCE proposes to submit this supplemental report by May 31, 1985.

If you have any questions or comments, please contact me.

Very truly yours,
