Dear all

Please find enclosed the final version of the Bel V report. May I ask you to keep it confidential. As you know, the FANC finally decided not to release his (provisional) report. As a consequence thereof, the Bel V report will not be available upon request.

By the way, is a public meeting about the Doel 3 - Tihange 2 RPV issue foreseen in the next future. I found no trace on the NRC web site.

Best regards,

Guy
