Tim/Dan,

Here is the NRC report for this week's meeting. Since Gary Stevens will be probably attending another meeting at the same time as WGOPC he asked me to present it. I don't recall the NRC report being presented at the last three meetings I attended, but I can discuss items that might be of interest to the WGOPC. I know that Doel 3 will be a topic of interest, there is a summary of NRC's trip last month to Belgium. We cannot discuss a lot of details because we are bound by a confidentiality agreement.

Subject: Re-Revision of NRC report

As is usually the case for something that covers so many different administrative and technical areas, there was one last correction. Please use this version for the committee meetings next week. Thanks, Wally
