Looks very good to me. Remove the additional blank bullet near the top of page 2, unless you were planning to identify 10CFR50 App. G as the vehicle for deterministic RPV evaluations.

**Subject:** Talking points for Leeds on Doel for ASN.docx

Eric Leeds is going to ASN in Paris in December and has learned that ASN wants to talk to him about Doel. I put together these talking points for him. Would you please take a look and ensure the points deliver an accurate message.

They are due tomorrow afternoon, so if you don't get to it until Monday, I won't consider your input....sorry.

Thanks,

Robert Hardies
