Importance: High

Dear members of Working Groups 1, 2 and 3,

1) Licensee documents

This week-end we have received from the licensee the complete list of **technical documents** (level 2 documents) on the Doel 3-Tihange 2 RPV issue. In attachment you can find this final list.

All listed documents have been uploaded to the EWG001 folder ("Licensee documents") which is accessible via VPN. These documents can be found in the folders of each working group

- WG1 Non Destructive Examination Techniques
- WG2 Metallurgy
- WG3 Structural Mechanics and Fracture Mechanics

The actual "**Safety Case Reports**" for both reactor units (a +/- 70 page report which will provide a general overview of the justification file, summarising the information from the various technical documents) is scheduled to be provided by the licensee this week (perhaps even today). We will inform you as soon as it is available.

2) Next Meeting

The Belgian Safety Authorities (Bel V, AIB-Vincotte and FANC) would like to invite you to a next meeting of the 3 Working Groups on **Tuesday 8 and Wednesday 9 January 2013**. This meeting will be held at the offices of the FANC in Brussels (each day from 9h30 to 17h00).

During this meeting the Belgian safety authorities will present to you their conclusions and opinions on each topic for discussion.

The preliminary agenda for this meeting is as follows:

- Session 1: Tuesday 08/01 AM: "Non Destructive Examination techniques" -WG1
- Session 2: Tuesday 08/01 PM: "Metallurgy"- WG2

E/31

A more detailed agenda will be sent to you before the end of this year. This detailed agenda will list for each session the major topics / questions to be presented and discussed and make a reference to the relevant licensee documents to be consulted.

To confirm your participation (or other experts from your organisation) to one or more of these 4 sessions, please send a reply by email to Ms. Nancy Dasseville: Nancy.DASSEVILLE@FANC.FGOV.BE if possible before Friday 21 December.

Best regards,
