They intend to release the summary report (80 pages) once they have announced their decision, which should be next week. They do not plan to release the lower tier documents. I am in Brussels now and was able to turn to the person to my right and ask them the question.

Bob,

Thanks again for your presentation to the Chairman. I just wanted to check on one topic... When is the all this information likely to be made public by the Belgians? I know you mentioned the NRC might have a public meeting in February...

Thanks,
Nathan
