They have a recurring agenda item for me to present "Update on NRC Activities Related to 10 CFR 50 Appendix G and H and RG 1.99 Rev.3. Attached is the slide I presented last time. I don't think there has been any significant developments in these areas since November. Maybe it would be better to give a Doel 3 update and maybe discuss 10 CFR 50.61a activities such as the Beaver Valley Pre-Submittal meeting and the draft regulatory guide.

Any input would be appreciated.
