Subject: FW: NMP1 Relief Request SE

Bhalchandra,

Unfortunately I'm going to have to request an extension on the due date for the relief request (1ISI-004) SE due to one of the contributors (Carol Nove) not being able to deliver her inputs on the NDE aspects last week.

She has had a lot of travel and is supporting the Doel 3 issue which has been taking up a lot of her time. (b)(6) but will be back and has promised to complete her inputs early the week of 1/28. So hopefully we should be able to deliver the SE by Friday, February 8.

Stacey has approved this request – see below.

Thanks,

Jeffrey C. Poehler

In this case, I'm okay with asking for an extension to early February.

Jeff,

We need to meet the 2 year metric. When is that?

Stacey,

Carol Nove told me she is not finished with her SE inputs and she is on leave all next week. Also, I have not received Carolyn's inputs yet, although she will probably complete them next week. Therefore I am going to have to tell Bhalchandra that we will not be able to deliver it until the first or second week of February, depending on how long you will need for the concurrence process. I wanted to make sure you are ok with me asking for more time again. I had previously told him we would deliver it by the end of January.

Thanks,

Jeff
