Director, Office of Nuclear Reactor Regulation
Attention: Mr. Frank Miraglia, Branch Chief
Licensing Branch No. 3
U. S. Nuclear Regulatory Commission
Washington, D.C. 20555

Gentlemen:

Subject: Docket Nos. 50-361 and 50-362
San Onofre Nuclear Generating Station
Units 2&3

The purpose of this letter is to transmit SCE's assessment of data from three oil wells drilled in the Capistrano Embayment during the period; 1978-1980. These three wells were previously addressed in a letter from SCE (K. P. Baskin) to the NRC (F. R. Miraglia) dated April 1, 1981.

Please find enclosed, seven copies (NRC Mail Code B0-24) of "Report on Recent Oil Exploration Drilling - Capistrano Embayment Area, Orange County, California" by Mr. Jack C. West, dated May 20, 1981. This report documents Mr. West's attempts to obtain the subject well data and his analysis thereof. For the two wells for which Mr. West was able to obtain data (Arriba de la Estrella "J. W. Ficklin" No. 1 and Santa Fe Energy "Reed-Krum" No. 1) the primary conclusion is that the data does not effect his previous interpretations as documented in "Supplement to the Generalized Subsurface Geological and Geophysical Study, Capistrano Area, Orange, California," 1979, by J. C. West. Although data from the third well (Texaco "O'Neill" No. 3) is not available, this well is very close to a well which produced good data which was utilized in Mr. West's previous reports.

Also enclosed please find seven copies (NRC Mail Code B0-24) of the data from Well No. 1, Arriba de la Estrella, "J. W. Ficklin" No. 1 and Well No. 2, Santa Fe Energy "Reed Krum" No. 1. As indicated in Mr. West's report, the data from Well No. 2 is proprietary to Santa Fe Energy Co. and as discussed with the Regulatory staff, should be held in confidence for internal
