Director, Office of Nuclear Reactor Regulation  
Attention: Mr. Darrell G. Eisenhut,  
Division of Licensing  
U. S. Nuclear Regulatory Commission  
Washington, D.C. 20555

Gentlemen:

Subject: Dockets 50-361 and 50-362  
San Onofre Nuclear Generating Station  
Units 2 and 3

Enclosed are sixty-three (63) copies of "F" series Potential Finding Reports (PFR) which have been processed and classified by General Atomic, as follows:

<u>PFR No.</u>	<u>Classification</u>	<u>Task</u>
F001	Invalid	C
F002	Invalid	C
F005A	Invalid	B
F049	Invalid	D
F059	Invalid	C
F079	Observation	B
F107	Invalid	C
F111	Invalid	D

The "F" designation in these numbers is to differentiate these PFRs from the original 58 issued in the Interim Report, and the letter designation under the Task column identifies the tasks in our Program Plan against which the PFRs were written.

We will transmit additional processed and classified PFRs to you when they are completed.
