Director, Office of Nuclear Reactor Regulation
Attention: Mr. Frank Miraglia, Branch Chief
Licensing Branch No. 3
U. S. Nuclear Regulatory Commission
Washington, D.C. 20555

Gentlemen:

Subject: Docket Nos. 50-361 and 50-362
San Onofre Nuclear Generating Station
Units 2 and 3

Item II.D.3, Direct Indication of Relief-And Safety-Valve Position, of NUREG-0737 required SCE to provide a safety valve position indication system for San Onofre Units 2 and 3 that is environmentally and seismically qualified. Additionally, License Condition No. (19)k of Operating License No. NPF-10 for San Onofre Unit 2 required SCE to document that the valve position indication system had been qualified consistent with the requirements of NUREG-0737, Item II.D.3.

Accordingly, the purpose of this letter is to inform you that the safety valve position indication system for San Onofre Units 2 and 3 has been environmentally and seismically qualified consistent with the requirement of Item II.D.3 of NUREG-0737 and that documentation which supports the qualification has been placed in environmental qualification data files, at the San Onofre Site Corporate Documentation Management Center, consistent with the NUREG-0588 guidelines for storage of documentation.

SCE considers that the information provided above satisfies the requirements of condition (19)k of Operating License No. NPF-10 for San Onofre Unit 2.

If you have any questions or comments, please let me know.

Very truly yours,

K P Baskin
