Tokyo, 108-8215 JAPAN

SUBJECT: UNITED STATES - ADVANCED PRESSURIZED WATER REACTOR DESIGN
CERTIFICATION APPLICATION - SAFETY EVALUATION FOR CHAPTER 19A,
"AIRCRAFT IMPACT ASSESSMENT".

Dear Mr. Ogata:

The U.S. Nuclear Regulatory Commission (NRC) staff is preparing a safety evaluation (SE) with open items (OIs) for each chapter of the United States - Advanced Pressurized Water Reactor standard Design Certification submitted by Mitsubishi Heavy Industries, Ltd. (MHI) on December 31, 2007, as supplemented by letters dated March 27, 2008, and April 16, 2008.

The NRC staff's SE for Chapter 19A, "Aircraft Impact Assessment," is being provided to the Advisory Committee on Reactor Safeguards (ACRS) Subcommittee to support upcoming meetings of the ACRS Subcommittee, scheduled to be held in 2014.

The enclosed SE is being provided only to MHI for review of proprietary information pursuant to Title 10 of the *Code of Federal Regulations* Part 2.390 "Public Inspections, Exemptions, Requests for Withholding." The NRC staff concludes that the enclosed SE does not contain any information for which exemption from public disclosure has been sought or approved, or any factual errors. However, the NRC will withhold the enclosed SE from public disclosure for ten business days from the date of this letter to allow MHI the opportunity to verify the NRC staff's conclusion that the SE contains no such exempt information or any factual errors. If within that ten day period, you do not request that all or portions of the SE be withheld from public disclosure, the enclosed SE will be made available for public inspection through the NRC Public Document Room and the Publicly Available Records component of NRC's Agencywide Documents Access and Management System and placed on the NRC's public web page for this application.

Document transmitted herewith contains sensitive unclassified information. When separated from the enclosure, this document is "DECONTROLLED."

Y. Ogata
