Subject: Response: U.S. EPR Design Certification Application FINAL RAI 599, 12.03-12.04 - Radiation Protection Design Features

George,

AREVA is revising closure plans and schedules to complete outstanding RAIs. Additional schedule information will be provided in the FSAR chapter closure plans. Until the closure plans are finalized, AREVA can not specify a date for completion of this RAI response.

Question #	Final Response Date
RAI 599 — 12.03-34	TBD

Sincerely,

Nathan Hottle

Attached please find subject request for additional information (RAI). A draft RAI was provided to you on August 23, 2013. On November 1, 2013, AREVA informed us that, the RAI is clear and does not contain proprietary information and that no further clarification is needed.

The schedule we have established for review of your application assumes technically correct and complete responses within 30 days of receipt of RAIs,. For any RAIs that cannot be answered **within 30 days or December 6, 2013**, it is expected that a date for receipt of this information will be provided to the staff within the 30-day period so that the staff can assess how this information will impact the published schedule.

Thank you,

Mike
