Secretary

U.S. Nuclear Regulatory Commission

Washington, D.C. 20555-0001

ATTN: Rulemakings and Adjudications Staff

I am writing to support the NRC's Spent Fuel Storage Rule, and wish to say that with NRC oversight PG&E has a very detailed and successful spent fuel management program And continues to safely store fuel via both its wet and dry cask storage systems. I am confident that layer upon layer of safeguards are in place to effectively manage and monitor the stored spent fuel. However, the Department of Energy has a responsibility to make good on its commitment to receive and safely store the spent fuel could be safely removed to a single or regional locations controlled by and protected by our national government. Thank you for your consideration.

Sincerely,

A handwritten signature in black ink, appearing to read 'Sandra C. Tannler', with a long horizontal flourish extending to the right.
