SUBJECT: PSEG SITE EARLY SITE PERMIT APPLICATION – ADVANCED SAFETY
EVALUATION WITH NO OPEN ITEMS FOR CHAPTER 11, SECTION 11.2,
“LIQUID WASTE MANAGEMENT SYSTEM” AND SECTION 11.3,
“GASEOUS WASTE MANAGEMENT SYSTEM”

Dear Mr. Mallon:

The U.S. Nuclear Regulatory Commission (NRC) staff is preparing an Advanced Safety Evaluation (ASE) with no open items (OIs) for each chapter of the PSEG Site Early Site Permit Application (ESPA) submitted by PSEG Power, LLC and PSEG Nuclear, LLC (PSEG) on May 25, 2010.

The staff's ASE with no OIs for Chapter 11, Section 11.2, “Liquid Waste Management System” and Section 11.3, “Gaseous Waste Management System,” is being provided to the Advisory Committee on Reactor Safeguards (ACRS) to support upcoming meetings of the ACRS subcommittee.

The enclosed ASE with no OIs is being provided only to PSEG for review of proprietary information pursuant to Title 10 of the *Code of Federal Regulations* (10 CFR) 2.390, “Public Inspections, Exemptions, Requests for Withholding.” The NRC staff concludes that the enclosed ASE does not contain any information for which exemption from public disclosure has been sought or approved, or any factual errors. However, the NRC staff will withhold the enclosed ASE from public disclosure for ten working days from the date of this letter to allow you the opportunity to verify the staff's conclusion that the ASE contains no such exempt information or any factual errors. If within that ten day period, you do not request that all or portions of the SE be withheld from public disclosure, the enclosure will be made available for public inspection through the NRC Public Document Room and the Publicly Available Records component of NRC's Agencywide Documents Access and Management System and placed on the NRC's public web page for this application.

Document transmitted herewith contains sensitive unclassified information. When separated from the enclosure, this document is “DECONTROLLED.”

J. Mallon
