Subject: EA-12-049 Mitigating Strategies Resolution with Respect to BWR Mk I and II Anticipatory Containment Venting

Project Number: 689

Dear Mr. Davis:

On behalf of the Boiling Water Reactor Owners Group (BWROG), attached is the industry response to the NRC generic request for additional information regarding BWR Mk I and II Anticipatory Containment Venting. This paper reflects NRC staff comments received during the September 12, 2013, public meeting (ML13240A382).

If you have any questions, please contact me.

Sincerely,

A handwritten signature in black ink, appearing to read "N. Pappas", is written over a light blue horizontal line.
