Subject: Nuclear Waste (Spent Rods)

Hi , My name is Gordon Howard, why are we using this very dirty material to make electricity? It is the most expensive way to generate electricity! It is the most dangerous way to make electricity! We don't have a clue what to do with the Nuclear Waste (Spent Rods) except to pour water on it for the next 100,000 years? Would you want a Nuclear Power Plant in your back yard? You can put Solar Cells and Wind Turbines in my back yard and on my roof!

Gordon Howard Electrical Consultant 44 years on the job
