Subject: Docket 2012 0246 regarding nuclear waste

Please discontinue all nuclear power plants and developments. There has been NO PROGRESS IN STORING NUCLEAR WASTES SAFELY in the over 60 years I have been concerned. You have not managed a single safe storage site or disposal program throughout your existence. Cease deceiving yourselves and the public.

Since the Fukusima meltdown began, the most serious threat comes from the nuclear storage rods kept at the site because there is no place else. What a stupid program! You must finalize nuclear power production in this country, wind it down successfully at the 100 remaining plants, and continue trying to resolve the waste storage problem. That will keep you in your jobs the rest of your life--if the human species and Earth survive the idiocy you created with your nuclear power delusion.

Sincerely yours,

Carol Jackson
