Hi Mike,

I don't know if Johari would want this but the WYCRO project ID number for this is 66405. That's how they track the project internally.

Hi Mike,

At this time all we really have are the numbers, which I assume should be forwarded to NRC. At the point we get completed site forms, those should be submitted for review and NRHP eligibility determination. I assume the PA can simply stipulate that these locations remain as "unevaluated" pending additional work. The numbers themselves do not have to be confidential, just the locations and descriptions.

Thanks very much Dave. Are there materials that I need to submit to NRC and should they be covered by a confidentiality affidavit?

Hello Mike and Ben,

Steve Sutter of the Wyoming Cultural Records Office has issued the following Smithsonian Site Numbers:

NRC#1 = 48CK2229
NRC#2 = 48CK2230
NRC#3 = 48CK2089 (the location is an added component of the adjacent existing site)
NRC#4 = 48CK2231

I will prepare preliminary forms for his records and then hopefully we can fully document and evaluate these locations this spring. Thanks,
Dave

Hi Johari,

No, you do not need site forms in order to get the numbers. The information that you need to get to Steve in order to get a site number is found here:

Mike,

In order to complete the Draft PA, we only need the Smithsonian trinomials. I don't believe we would need site forms at this time. However, I will confirm this and let you know.

Hi Johari:

I just spoke to Dave Ferguson and he should have the site forms prepared by the end of the week. The only additional data that he thought would help would be if there are any photos that should be included.

One possible delay would be getting the forms to NRC with the proper Affidavit for confidentiality. I will be heading to Nebraska Thursday and between holidays and working at home will not be in the office until January 6. Ralph will also be in the Crawford area so I should be able to get an affidavit at some point during that period of time. Do you want me to delay sending SHPO the information until the NRC package is ready to send?

Thanks

Mike
