 2. South Carolina Electric and Gas Company, NND-13-0710, Letter from Alfred M. Paglia (SCE&G) to Document Control Desk (NRC), LAR 13-38R Revised License Amendment Request: Auxiliary Building Structural Floor and Roof Details, dated December 5, 2013.
(Adams Accession Number ML13343A073)

In Reference 1 above, South Carolina Electric & Gas Company (SCE&G) submitted a license amendment request (LAR) for Virgil C. Summer Nuclear Station (VCSNS) Units 2 and 3 combined licenses (COLs) (License Nos. NPF-93 and NPF-94, respectively). The proposed amendment would depart from Tier 2 and Tier 2* material to identify that design details of the floors and roof of the auxiliary building may vary as a result of design finalization, but compliance with applicable code requirements will be maintained.

SCE&G intends to revisit the scope of the requested changes and level of detail within LAR 13-38 and therefore requests withdrawal of the LAR, (References 1 and 2), from NRC review pursuant to 10 CFR 2.107. SCE&G intends to submit another LAR on this subject in the near future.
