## General Comment

Why won't the gov't admit Fukushima is destroying the Pacific and negatively affecting humans? Honesty and truth is it gone? St Louis Waste - I don't even know where to begin. So much under the ground, close to a smoldering fire, in the middle of large metro area. Dig it up and turn it into Glass? risk releasing more shit into the atmosphere? It snowed in STL on the 14th of Dec and my kids played in it. Found out that the snow is contaminated with FUKU crap about 70cpm. No one cares, especially not the NRC. Promotion not Protection!!!! I have seen no one comment, no news stories about Fukushima here in the US. The only thing is ENENEWS. FOIA docs prove the lies the NRC and govt are complicit.
