General Comment

How do we contain Fukushima?

"THE WALL

The Thin Ice

Even with walls very tall,

The water continues to fall:

How high will suffice?

Plus, cracks in the ice,

Will require more cubes in the wall.

There's no ice which they can install

To completely encircle it all;

Plus, flows over the top

Make the need never stop

For another cube in the wall.

No education at all,

No thought control to recall:

Leave them kids alone,
There's no time to postpone
Another cube in the wall.

I've seen the wall-written scrawl—
Nothing will help now at all;
You can pile on more ice,
But here's doomer advice:
It's all just cubes in the wall. " BenjaminTheDonkey

There is no solution to containing nuclear waste. Stop making it now.
