General Comment

Abandon the generic "one size fits all" approach to storing nuclear waste and instead, make site-specific environmental reports and recommendations that take local conditions into account. NO FUKUSHIMA IN SAN CLEMENTE OR CALIFORNIA! GET THIS NUCLEAR WASTE OUT OF HERE! YOU CREATED IT, PUT IT IN YOUR BACK YARD! HOW WOULD YOU LIKE THAT! THINK ABOUT IT! ESPECIALLY WITH EARTHQUAKES! JAPAN, NOW HAVING ABOUT A 5.0 per day, after Fukushima (and probably before). We are long overdue and a Cascadia Sub-duction event could trigger a San Andreas Fault event. MOVE NUCLEAR WASTE NOW!!!!
