Subject: Emergency Plan Revision 26

Dear Sir or Madam:

Babcock & Wilcox Nuclear Operations Group - Lynchburg (B&W NOG-L) revised its Emergency Plan. The revision was made in accordance with 10 CFR 70.32(i), as a change that does not reduce the effectiveness of the plan.

**Enclosure 1** contains a list of the changes and the justification for making them. **Enclosure 2** contains controlled copy #28 of the Emergency Plan Revision 26 (note: for NRC Region II, Enclosure 2 contains controlled copy #29). This plan will replace Revision 25. B&W NOG-L requests that your copy of Revision 25 be destroyed or returned to B&W NOG-L. B&W NOG-L also requests that both the NRC Washington and Region II offices acknowledge, via letter or email, receipt of this controlled copy of Revision 26. A pre-addressed envelope has been included for your convenience.

Both enclosures are designated as Official Use Only because they contain data that has the potential to damage governmental, commercial, or private interests if disseminated to persons who do not need the information to perform their jobs or other DOE-authorized activities, and therefore should be withheld from public disclosure. DOE G 471.3-1 was used for guidance.

Should additional information be needed for this matter, please contact me at 434.522.6405 or via email at [caengland@babcock.com](mailto:caengland@babcock.com).

Sincerely,

Charles A. England  
Manager, Licensing & Safety Analysis  
Babcock & Wilcox Nuclear Operations Group, Inc. - Lynchburg
