## General Comment

Please do not store this nuclear waste at San Onofre. Earthquakes happen frequently and could have a disastrous effect on waste not stored well and properly. It would be far preferable to have it gone somewhere. We live about 20 miles from there and we are very glad you shut that crippled reactor down, but we are left with all of the waste to continue to pollute our beautiful area. Help us to get rid of it, please.

Thank you so much,  
Shari Horne
