Docket: NRC-2012-0246

Consideration of Environmental Impacts on Temporary Storage of Spent Fuel After Cessation of Reactor Operation

Comment On: NRC-2012-0246-0456

Waste Confidence - Continued Storage of Spent Nuclear Fuel; Extension of Comment Period

Document: NRC-2012-0246-DRAFT-1155

Comment on FR Doc # 2013-26726

Submitter Information

Name: Dante Renzoni

General Comment

The menace of enormous amounts of highly radioactive materials in insecure locations is an unacceptable risk to the United States and the entire world. If anything would cause the breakdown of the storage system, especially on the west coast of the United States, a giant swath of our country would no longer be inhabitable and millions of people would die or be severely impacted. We will loose giant acreages of agricultural land and our economy would be devastated. You must take your responsibility seriously to protect America from even a remote possibility of release of radioactive materials from our power plants. Your first target should be San Onofre. Please head the San Clemente City Counsel resolution.

ouncil Resolutions.
