Comment:

The toxic waste from Diablo Canyon is too dangerous to  
be transported anywhere + too long lasting to be considered  
"safe" in any way! In 30 years no solution has yet been  
found - its hard to believe these plants ever came into exist-  
ence in the first place! So many of my friends + neighbors  
have no confidence in the NRC Most of us feel that no  
matter what we say you will do exactly as you please  
Please, I beg you, don't let this be an exercise in  
futility. Close Diablo Canyon and stop making any  
more toxic waste for future generations to have to  
deal with
