Subject: RE: Looking for NUREG for MOX

Recipient's name:
Thomas Gary Clark

Recipient's title:
MOX Services Security Director

Recipient's clearance:
DOE "Q"

Recipient's storage capability:
GSA approved repository available for up to and including Secret / Restricted Data. Repository already contains classified information in the form of paper documents and computer media.

Justification for a copy of NUREG 6190:
The MOX Services Physical Protection Department is requesting the NRC NUREG/CR 6190, *Protection against Malevolent Use of Vehicles at Nuclear Power Plants, Vols. I & II* since this provides more specific performance criteria associated with meeting the NRC protection requirements contained within the Design Basis Threat (DBT) 10 CFR 73.1(a)(1). Therefore, the guidance contained NUREG/CR 6190 will provide MOX Services useful insights as we update supporting security analyses.

Its SGI.

I need to know who exactly wants it, their title, why and verify they have an active SGI or classified background check in place. IN addition, they will need a verified authorized storage location. After these measures are validated as ok to proceed, then I can FedEx it.

Subject: Looking for NUREG for MOX

Al,

I got a request this morning from MOX for NUREG/CR-6190.
I can't seem to find it. How do I figure out if this document is OUO or safeguards?
What do I have to do to provide MOX with a copy?
I would appreciate any help you could provide.
Sorry to be a pain.

Thanks,
Kevin Morrissey
MOX PM
