SUBJECT: NRC INSPECTION REPORT NO. 03036195/2013-001 & 03038180/2013-001,
DEPARTMENT OF THE ARMY, REDSTONE ARSENAL, ALABAMA AND
RESPONSE TO NOTICE OF VIOLATION

Dear Major General Collyar:

This letter is in reference to your Memo dated December 13, 2013, responding to the Notice of Violation that was issued to the Department of the Army on October 28, 2013. The Notice of Violation requested that your response address the following:

1. The reason for the violation,
2. The corrective steps you have taken and the results achieved,
3. The corrective steps that will be taken to avoid further violations, and
4. The date that full compliance will be achieved.

Thank you for providing the information describing an immediate corrective action that has been initiated in the form of an Aviation Maintenance Action Message issued on December 9, 2013, which directs all Army depots and aviation units to conduct a serial number inventory and report the inventory to AMCOM Safety and the Armed Scout Helicopter Project Management Office no later than December 19, 2013.

However, we noted that your response was incomplete. You have not provided the results achieved by your corrective steps. In addition, the description of corrective steps taken to avoid further violations does not provide enough detail for us to assess the potential effectiveness of this corrective action. You also indicated that the potential inventory solution is expected to be implemented in FY2014. We are requesting that you commit to a specific date for establishing full compliance.

Please respond within 30 days of the date of this letter and assure that your response to this letter adequately addresses the Notice of Violation dated October 28, 2013 and the four attributes specified previously. Where good cause is shown, consideration will be given to extending the response time.
