Docket: NRC-2012-0246

Consideration of Environmental Impacts on Temporary Storage of Spent Fuel After Cessation of Reactor Operation

Comment On: NRC-2012-0246-0456

Waste Confidence - Continued Storage of Spent Nuclear Fuel; Extension of Comment Period

Document: NRC-2012-0246-DRAFT-1270

Comment on FR Doc # 2013-26726

Submitter Information

Name: Susan Nichols MD

General Comment

Stop the making nuclear waste. Stop licensing new nuclear plants and renewing licenses for current nuclear plants until a valid, realistic assessment of the environmental impacts of nuclear waste is done by you . The licensing moratorium should be permanent. The "waste confidence" policy must be abandoned. There is no confidence in storing nuclear waste. The waste itself is extraordinarily toxic, deadly and extremely long-lasting. The government has failed to demonstrate that nuclear waste will be managed safely and the NRC has not adequately the environmental impacts of the waste that new and relicensed reactors would generate. Thank you for reading my comment.
