Docket: NRC-2012-0246

Consideration of Environmental Impacts on Temporary Storage of Spent Fuel After Cessation of Reactor Operation

Comment On: NRC-2012-0246-0456

Waste Confidence - Continued Storage of Spent Nuclear Fuel; Extension of Comment Period

Document: NRC-2012-0246-DRAFT-1281

Comment on FR Doc # 2013-26726

Submitter Information

Name: Laura Selesky

General Comment

I live in a Chicago suburb, I receive my water from Lake Michigan. We are being poisoned by bp dumping chemicals in Lake Michigan. Now another corporation wants to bury RADIOACTIVE waste under another Great Lake. Why do corporations get to abuse the privilage of being the earth's stewards by fouling our drinking water, air & soil? They ruin it for the common man while they laugh all the way to the bank! The Great Lakes are under assault by these corporations, & the government who is paid for by the peoples tax dollars keep buckling under to these corporations that take no ones rights into consideration! We do not want any more waste radioactive or other wise to be placed in or under or by these national treasures! The Great Lakes belong to everyone & should not be allowed to be fouled by these for profit corporations! Lets keep the integrity of the Great Lakes intact. Have you not seen what has happened to the Pacific Ocean because of radioactive water from the fukishama nuclear plant being released into the ocean? Wake up & smell the coffee this could happen to our great lakes, they could become a dead zone! Believe me these corporations will be long gone with their cash & won't take anyresponsibility for clean up. How many super fund sites are in this country already? that the peoples taxes cannot afford to clean up because the corporations skipped out on their responsibilities? I mean what could possibly go wrong? RIGHT?<http://thinkprogress.org/climate/2013/12/20/3096231/chevron-illegally-dumping-toxic-drilling-waste/>. Thank You for your consideration of my comment
