KING OF PRUSSIA, PENNSYLVANIA 19406-2713

December 19, 2013

Docket No. 03001243  
Control No. 582350

License No. 06-00679-01

Chad W. Wable, FACHE  
President and CEO  
Saint Mary's Hospital  
56 Franklin Street  
Waterbury, CT 06706

SUBJECT: SAINT MARY'S HOSPITAL, LICENSE AMENDMENT, CONTROL NO. 582350

Dear Mr. Wable:

This refers to your license amendment request dated October 12, 2013, to add a new facility to the license. Please note that we have added the Naugatuck Valley Surgical Center facility for the purpose of performing sentinel node biopsy procedures as you requested. Enclosed with this letter is the amended license.

Please review the enclosed document carefully and be sure that you understand and fully implement all the conditions incorporated into the amended license. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region I Office, Licensing Assistance Team, (610) 337-5239, so that we can provide appropriate corrections and answers.

An environmental assessment for this action is not required, since this action is categorically excluded under 10 CFR 51.22(c)(14).

Current NRC regulations and guidance are included on the NRC's website at [www.nrc.gov](http://www.nrc.gov); select **Nuclear Materials; Med, Ind, & Academic Uses**; then **Licensee Toolkits**, see our **toolkit index page**. You may also obtain these documents by contacting the Government Printing Office (GPO) toll-free at 1-866-512-1800. The GPO is open from 8:00 a.m. to 5:30 p.m. EST, Monday through Friday (except Federal holidays).

The NRC's Safety Culture Policy Statement became effective in June 2011. While a policy statement and not a regulation, it sets forth the agency's *expectations* for individuals and organizations to establish and maintain a positive safety culture. You can access the policy statement and supporting material that may benefit your organization on NRC's safety culture Web site at <http://www.nrc.gov/about-nrc/regulatory/enforcement/safety-culture.html>. We strongly encourage you to review this material and adapt it to your particular needs in order to develop and maintain a positive safety culture as you engage in NRC-regulated activities.

C. Wable
