From:

Colleen Bonnuell

birthplace: Mpls Mn.

To: Waste Confidence Rulemaking Staff.

Blessed greetings for the sake of all Life.

First I would like to thank you all for considering my comments here and all the testimony submitted by concerned people who have approached you with a concern for the children, the people and All Life of Today and Tomorrow. Never forget the by, for and of the people, and the prior, free, informed consent governance that so many have sacrificed to defend, without it, you will get no confidence in the NRC's confidence!

I purpose that all get a start on a NEW SIS! that includes THE PEOPLE! and hold and keep through time. Had THE PEOPLES' right to vote on a law that effected them (us) from the beginning (1920's - TESTA) it would not have brought us here where we are today at this late hour.

Have confidence in the people. This issue will take the patience of all to get right - whenever we can. The process must remain open! Hiii

consideration to the Peoples ideas.  
 Consider EMOTO's science. Base  
 economic markets on cooperatives,  
 renewable energies and sustain-  
 able agriculture. ECO SAFE!  
 With access to pure water for all  
 life.

STOP making nuclear waste.  
 Set a NEW CLEAR example to the  
 International Community. Approach  
 an International Uranium Mining  
 Moratorium and Waste Disposal  
 Moratorium. No new licenses for  
 nuclear plants (?). SECURE the  
 waste. Protect the land and water,  
 all life and the future. No transport  
 of the waste. No interim storage.  
 Do not force the waste on any state  
 Domestic or International. More  
 time is needed for these determinations  
 to get it RIGHT! From now forward -  
 remove the corruption in this industry  
 allow the people to secure the future  
 that these industries had and have  
 threatened.

The people know!

My mother told me not to eat the snow  
 when I was 3 1/2. I loved to eat the snow.  
 So I asked why can't I eat the snow?  
 She said "because it's radioactive," I  
 asked what's radioactive. She said "it  
 comes from the big boom"! This was my

first memory. Now at 62, I remember TMI (79) and PI (79) and Chernobyl (86) and have researched Hanford. (And the MOVIES... "The China Syndrome", "Godzilla", "Chernobyl Hearts", and "Into Eternity", AND TRIVE the Movie! (And I am Mohican!) I have a niece, nephew and brother. The children are Japanese - Americans, and since March 11, 2011 I have been trying to get them out of Japan! They will not leave. I mourn the loss of life in the oceans.

Do not like Japan - restrict Freedom of Speech! Allow those (us) life Protectors to Stand Stronger - United and have our voices heard. We! Demand the shut down of all 104 nuclear plants and facilities and all 1000 globally. Begin with a plan with this focus for the sake of All Life on Earth. Keep minds and hearts open to all life. These truths are age-prepared. Give direction to the future! Make good use of CONSCIENCE. (Emoto's science on water is a good study for pre science nuclear Physics - for Hope!) Protect the water! (The Great Lakes) !!!! and all water sheds - Recover the waters from all poisons! Protect the air and hands! Protect All life!

I am an anti nuclear activist who,  
on the front line - suffered a ~~hit~~!  
and will not be deterred as life  
Precious life of Earth is Extremely  
Challenged! Consider the True Cost  
of Nuclear Power!

No new nukes, no uranium process or  
mining, no interim waste siting,  
no transport of nuclear wastes,  
Secure nuclear waste, no nuclear  
waste from or to other countries,  
no more nukes. Shut all down.  
Plan NOW! NO NUKES!

I testified at the Minnetonka  
Minnesota meeting Dec 4, 2013.

And a date I quoted was wrong!  
I said 1876 and meant to say 1871,  
in reference to the law that gives  
corporations the rights of "persons."  
Persons are human beings. This  
business and other fossil fuel industries  
are guilty of laws against humanity  
and nature. Their politics is extremely  
TOXIC and defies the BILL of Rights,  
and they abuse the English language  
in the Courts!

Mr. President, Senators, Congressmen  
and Women, NRC... Admit a mistake  
has been made. "Move to Amend"  
The 1871 Law that gives anyone the  
right to foreclose on the FUTURE!  
ON HUMANITY, ON ALL LIFE!

Protect the Children and their future, our future! Do not let us become Slaves to this POISON! Protect the land, water and the future - our safety and future! And Freedoms.

There is your example. I admitted and corrected my mistake in this testimony. (humbly).

Please know LOVE is the Mindbomb! nuclear Waste - the only "enclosure" we can secure!

Remember what got us all here and gave us everything we all have ever had - have - or will have, and that takes us back....  
"Our Common Mother Earth!"  
is Sacred."

"In art work, native people sometimes make 1 mistake and it is that mistake, a proof of authenticity, and where the spirit comes through the work!"

! NO FREE PASSAGE! of WASTE!  
STOP MAKING MORE WASTE!  
NO STATE IS A NUCLEAR  
WASTE DUMP.

Protect  
Protect  
English  
priorities

Colleen Bonniwell  
mother, grandmother  
Human Being.  
(representing all life)
