Subject: RE: Nuclear Gauge Certificates

This is not all I wanted. I need to see (1) use logs at NRC jurisdictions; (2) List of gauges used at these locations; (3) Annual audits of your program; (3) Leak test records of gauges used in NRC jurisdictions. I was concerned when you were taking notes at the back of my business card that you may not get what I was asking you to provide to me, and you had said that you will transcribe these notes. It looks like it did not happen. Please send the requested documents.
