SUBJECT Near-term requests regarding the Model No. 2000 Package			
SUMMARY NRC Participants: Michele Sampson, John Vera. GEH Participants: Kendall McGowan, Bryce MacDonald, Scott Murray. The teleconference was conducted for GEH to indicate three near-term requests regarding the Model No. 2000 Package. First, GEH will request an extension of the use of the special authorization letter issued on December 31st, 2013 because the shipment authorized therein is delayed due to inclement weather. Second, GEH wanted to make NRC aware that the Model No. 2000 Package is and will be in use by Oak Ridge and Idaho National laboratories for shipments of irradiated fuel. Third, GEH requests a public meeting with NRC in order to discuss and set paths forward to resolve all issues associated with the package. GEH intends to have a consolidated SAR with such resolution by year's end, but wishes to discuss interim measures for shipment needs. Continue on Page 2
