Rockville, MD 20852-2738

Reference: Oregon State University TRIGA Reactor (OSTR)
Docket No. 50-243, License No. R-106

Subject: Modification of OSTR Physical Security Plan

Mr. Adams:

As a result of a review, certain changes to the OSTR Physical Security Plan were determined to be necessary. This letter represents our formal report of the changes governed by 10 CFR 50.54(p). Based on our evaluation of these revisions, we have concluded that none of the specific changes in the attached enclosure reduces the plan's effectiveness.

In keeping with the instructions in USNRC generic letters 84-18 and 82-39, specific information regarding the Physical Security Plan changes are included as a separate enclosure (Enclosure 1) to this letter. Enclosure 2 provides the necessary replacement pages for your copy of the Physical Security Plan. In accordance with 10 CFR 2.390(d) and any other applicable parts of the USNRC's regulations, we hereby request that Enclosure 1, Enclosure 2, and this letter, when it is attached to either of these enclosures, be withheld from public disclosure.

If you have any questions, please call me at the number above. I declare under penalty of perjury that the foregoing is true and correct.

Executed on: 12/24/13.

Sincerely,

Steve Reese
Director
