Docket No. 03036470
Control No. 582690

License No. 06-30865-01

Sushil K. Kanwar
General Manager
PL Medical Company, LLC
117 West Dudley Town Road
Bloomfield, CT 06002

SUBJECT: PL MEDICAL COMPANY, LLC, REQUEST FOR ADDITIONAL INFORMATION
CONCERNING APPLICATION FOR RENEWAL OF LICENSE, CONTROL NO.
582690

Dear Mr. Kanwar:

This is in reference to your application dated December 10, 2013 requesting to renew Nuclear Regulatory Commission License No. 06-30865-01. In order to continue our review, we need the following additional information:

1. As stated in the notice of expiration which was sent to you, we reserve the right to request a complete, up-to-date application in cases where licenses have been amended frequently or are supported by a large number of fragmented or disjointed documents. It has been ten years since your original application. We have reviewed your submission and existing license and request that you submit a single, complete application using NUREG-1556, Volume 18, "Consolidated Guidance About Materials Licenses, Program-Specific Guidance About Service Provider Licenses". Refer to Section 8, Contents of an Application. For each item there is a Response from Applicant. Includes your response to each item in your submitted renewal application. Please note for item 8.10.6, you should submit the PL Medical emergency procedures for all likely scenarios as part of your renewal application.
2. Your application should have been signed by a management representative rather than the radiation safety officer. Please submit a letter signed by a management representative indicating that management has reviewed the application and concurs in the statements and representations contained therein. Note also that a management representative should sign all future correspondence that requests a change in your license.

Current NRC regulations and guidance (including the NUREG volume mentioned above) are included on the NRC's website at www.nrc.gov; select **Nuclear Materials; Med, Ind, & Academic Uses**; then **Licensee Toolkits, see our toolkit index page**. You may also obtain these documents by contacting the Government Printing Office (GPO) toll-free at 1-866-512-1800. The GPO is open from 8:00 a.m. to 5:30 p.m. EST, Monday through Friday (except

Federal holidays).

The NRC's Safety Culture Policy Statement became effective in June 2011. While a policy statement and not a regulation, it sets forth the agency's *expectations* for individuals and organizations to establish and maintain a positive safety culture. You can access the policy statement and supporting material that may benefit your organization on NRC's safety culture Web site at <http://www.nrc.gov/about-nrc/regulatory/enforcement/safety-culture.html>. We strongly encourage you to review this material and adapt it to your particular needs in order to develop and maintain a positive safety culture as you engage in NRC-regulated activities.

We will continue our review upon receipt of this information. Please reply to my attention at the Region I Office and refer to Mail Control No. 582690. If you have any technical questions regarding this deficiency letter, please call me at (610) 337-5236.

In order to continue prompt review of your application, we request that you submit your response to this letter within 30 calendar days from the date of this letter.

Sincerely,

Original signed by John Nicholson
