Classification: UNCLASSIFIED  
Caveats: NONE

Mr. Wilson,

Another item.

The location for source storage for the NDT is not explicitly listed.

My Item 10 statement was

Licensed material may be used or stored at the licensee's facilities on Aberdeen Proving Ground, Maryland; 22D Chemical Battalion (Technical Escort), Aberdeen Proving Ground, Maryland; 110TH Chemical Battalion (Technical Escort), Joint Base Lewis-McChord, Washington; CBRNE Analytical and Remediation Activity facilities on Aberdeen Proving Ground, Maryland and Pine Bluff Arsenal, Arkansas and at temporary job sites of the licensee anywhere in the United States.

The first part of this, " Licensed material may be used or stored at the licensee's facilities on Aberdeen Proving Ground" was intended to allow storage in the area controlled by the NDT.

Scott

Mr. Davidson,

The license amendment is complete and is being processed.

I will update you when it's been mailed.

Sincerely,

Scott Wilson

Mr. Wilson,

I was wondering what the status might be of the recent amendment request from the 20TH CBRNE Command?
