TELEPHONE CONVERSATION RECORD

Date: 12/11/2013 & 12/12/2013

License No. 19-31127-01 Docket No. 03037133 Mail Control / Report No. 582176

Licensee Name: Department of the Army, Aberdeen Proving Ground

Participant(s) Name/Title: Scott Davidson, RSO & Scott Wilson, RI Health Physicist

Telephone No: 410-436-9643 ☒ Work ☐ Cell ☐

SUBJECT: Licensee Request to Correct License. Corrected Copy items.

DISCUSSION:

The following items were discussed:

1. Mr. Davidson (RSO) reviewed the amended license and identified that a sealed source requested in the amendment request letter was not included on the license. He requested that the sealed source be added. I apologized for the error and informed him that I would correct the license and send a Corrected Copy.
2. Mr. Davidson also stated that locations of use in Condition 10 required an additional location for the Aberdeen Proving Ground which would allow certain teams to use sources and store them with their units. He provided the location and I told him I would add that to the Corrected Copy as well.
3. Mr. Davidson also requested clarification on the use of the Cf-252 sources. One use is in the PINS system, the other is for training of NDT Team members and does not include use of the PINS system. I told Mr. Davidson I would revise the license to specifically identify the Authorized Use for the NDT Team members in Item 9A of the license.

I told Mr. Davidson I would correct the license and send a Corrected Copy.
