Tom,

Attached hereto are the three replacement pages mentioned in my previous email transmitting the table of submittals and ML #s. The three pages were deemed necessary to address a minor typo issue. On pp. 2-380 and 2-381 the reference to NUREG/CR-5512 has been corrected from NUREG-5512. These changes are found in the penultimate line on p. 2-380 and in the second line of p. 381. The reference also was corrected in the penultimate entry on the list of references (p.2-383). Should you have any questions, please contact me or John Mays at your convenience.
