Project No.0782
MKD/NW-14-0002L

Subject: Response to NRC Letter dated December 19, 2013

Reference: ML13351A417, "Korea Hydro and Nuclear Power Co., Ltd., and Korea Electric Power Corporation Non-Acceptance of the Application for Standard Design Certification of the APR1400", dated December 19, 2013.

Korea Hydro and Nuclear Power (KHNP) would like to express its gratitude to you and your staff for the time and effort on its review of the APR1400 design certification (DC) application. Contrary to our expectations, we received the results that the NRC staff decided not to accept the APR1400 DC application for docketing at this time.

KHNP and KEPCO will be continuing pre-application interactions with your staff and re-submitting the APR1400 DC application to the NRC after resolving the issues that NRC staff identified. Therefore, we request a public meeting with NRC staff in February 2014 to resolve those issues.

KHNP and KEPCO look forward to your continuing support for the APR1400 project.

Sincerely,

Myung-Ki Kim
