U.S. Nuclear Regulatory Commission
Attn: Document Control Desk
One White Flint North
11555 Rockville Pike
Rockville, MD 20852

Subject: Model Nos. SP-1, SP-2, and SP-3, Certificate of Compliance No. 9248, Revision 22,
Request for Renewal, Docket No. 71-9248

In accordance with the requirements of 10 CFR 71.38, AREVA Inc. herewith requests renewal of the Certificate of Compliance (CoC) No. 9248, Revision 22. This CoC expires on April 30, 2014. This early renewal request and approval is to provide sufficient time to request renewal of the associated Competent Authority Certificate, USA/9248/AF, Revision 24, which also expires on April 30, 2014. These early renewal approvals are needed to support an early April 2014 AREVA Inc. business need.

In addition to this renewal request, AREVA Inc. is also providing an editorial correction to the cover page of the Safety Analysis Report (SAR) for the Model Nos. SP-1, SP-2, and SP-3 shipping containers. Enclosure 1 provides the replacement pages for the proprietary version of the SAR. Enclosure 2 provides the replacement pages for the non-proprietary version of the SAR. An affidavit pursuant to 10 CFR 2.390 is not required for these replacement pages, since they only distinguish the version and do not actually contain proprietary information.

If you have questions or require further information, please call Glenn Mathues at 410-910-6538 or me at 410-910-6820.

Sincerely,

A handwritten signature in black ink, appearing to read 'Paul Triska'.

Paul Triska
Vice President, Technical Services

cc: Ms. Michele M. Sampson (NRC SFST)

Enclosures:

1. Replacement Pages for the Proprietary Version of the SAR (These pages do not contain proprietary information)
2. Replacement Pages for the Non-Proprietary Version of the SAR
