Dawn:

The 40.65 provision is specific to effluent monitoring reporting requirements. The items in LC 11.1 (B) are not effluent monitoring items required by 40.65. Your extension request is approved for an additional 30 days.

Subject: Uranerz SUA-1597 License Condition 11.1

Ron,

This morning we discussed License Condition 11.1(B) under heading Monitoring, Recording, and Bookkeeping requirements. It was noted that the condition requires that semi-annual reports will be submitted to the NRC within 30 days following completion of the reporting period. However, 10 CFR 40.65 allows 60 days.

We are currently in the process of completing the July-December 2012 semi-annual which by the license condition is due January 30th. There is laboratory data pending that should complete the years report and as such we are requesting a 30 day extension from January 30th to allow for analysis of the results.

Thank You

Dawn Kolkman
