Beaver Valley Power Station Physical Security Plan (Revision 17)

This letter forwards Revision 17 of the Beaver Valley Power Station (BVPS) Physical Security Plan (PSP) which was effective on December 13, 2013. Attachment A provides a summary of the Revision 17 changes. The changes were reviewed and determined not to decrease the safeguards effectiveness of the BVPS Physical Security Plan. Accordingly, these revisions are being submitted in accordance with 10 CFR 50.54(p)(2).

The enclosed revision of the BVPS Physical Security Plan is Safeguards Information and must be withheld from public disclosure under the provisions of 10 CFR 73.21.

There are no regulatory commitments contained in this letter. If there are any questions or if additional information is required, please contact Mr. Daniel L. Craine, Manager – Site Protection, at (724) 682-7812.

Sincerely,

Eric A. Larson

**Summary of BVPS Physical Security Plan, Revision 17 Changes
Page 1 of 1**

The following summarizes the BVPS Physical Security Plan (PSP), Revision 17 Changes:

Revision 17 of the BVPS PSP includes revisions to Chapter 11, Physical Barriers, as well as Appendix C, BVPS Safeguards Contingency Plan to remove the size of the Barrier One Drop Arm Swing Gate Vehicle Barrier. The necessity of this change was in response to a corrective action to widen the entrance to the channeling barriers for safety reasons. Part of the process of widening the entrance to the channeling barriers included the purchase and installation of a longer Barrier One Drop Arm Swing Gate Vehicle Barrier.

Revision 17 of the BVPS PSP is being submitted utilizing the criteria described in NRC Generic Letter 95-08 and NEI 11-08, Guidance on Submitting Security Plan Changes. The 10 CFR 50.54(p) screening process determined that the Revision 17 changes do not decrease the effectiveness of the BVPS PSP.
